Welcome
to PlugWalk

Get Walkin'

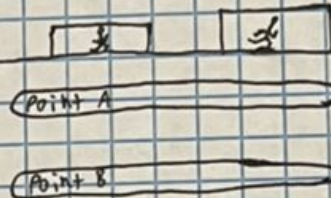

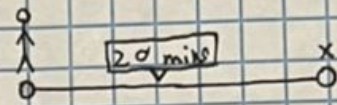

Bar fills, & guy continues
to walk in place as the
app is loading

(Map of the area
around the person
using the app)

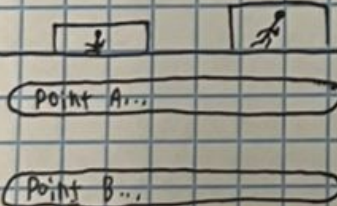

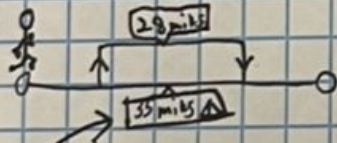

Click these to set
the location by typing
in locations.

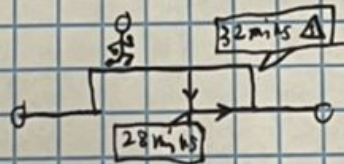

Walk & Jog buttons

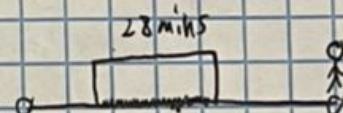

Walk button pressed,
walk time given.

Will display hazards in
the way and redirect
to a faster path.

Even on the move it
will tell you new routes
to walk on.

Time completed: 28 mins
Distance traveled: 0.4 miles

The app will also,
at the end of the walk,
tell the time and distance
the person went. Then reset
the app.
